RxAware: Medication Safety

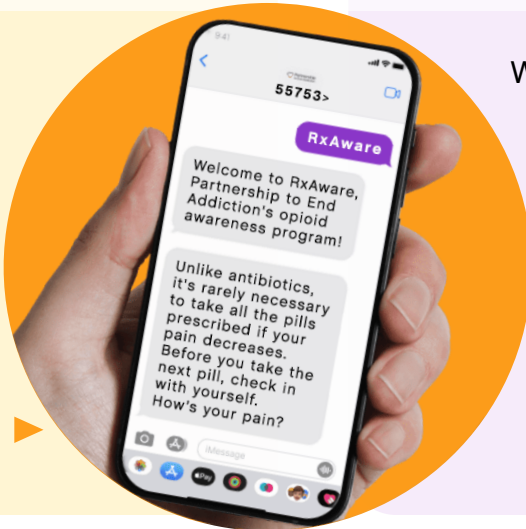

Receive information on **pain management** and **prescription opioid safety** via text.

If you are an individual or a parent of a child who received an opioid prescription for acute, short-term pain, you can receive personalized tips, tools, and resources delivered to your cell phone.

HOW IT WORKS

1. Text **RxAware** to **55753**
2. Answer a few questions about your **opioid prescription** and **situation**
3. Receive text messages with **information** and **support**, customized to your needs, for the length of the prescription

Whether you want to learn how to manage your pain while preventing misuse, or how to safely store and dispose of your prescription medications, **RxAware** delivers articles and helpful tips to keep you and your loved ones safe. ▶

Help & Hope by Text

Get personalized **support, tips,** and **resources** about **substance use,** including **opioid use.**

If you are a parent or caregiver looking for information about prevention, intervention, treatment, or recovery, we will deliver practical advice, tailored to your situation, so you can help your loved one.

HOW IT WORKS

1. Text **JOIN** to **55753**
2. Answer a few questions about your **loved one** and **their substance use**
3. Receive **customized messages** and **support**, specific to your needs, delivered right to your phone

Whether you want to learn about preventing substance use, need help addressing a family member's addiction, or want to find treatment options — including medications for opioid use disorder — **Help & Hope by Text** offers resources to help you and your loved one.
